Command Line Operations

All licensing operations available in the RStudio user interface may also be performed from the command-line using the *license-manager* executable. This is rarely necessary, except in some cases outlined earlier in this document, or if instructed by a customer support representative.

OS	Default Location
Windows	C:\Program Files\RStudio\bin\license-manager.exe
macOS	/Applications/RStudio.app/Contents/MacOS/license-manager
Linux	/usr/lib/rstudio/bin/license-manager
